# Scheepers' *Lilium Candidum* and *Delphinium*

For The June Garden

## *Delphinium Hybrids*

The stately Delphinium has a place in everyone's garden. The tall Hybrids as a background or the dainty Belladonna planted in the foreground for the Madonna or Regale Lily, it creates a color combination that is most desirable. They are equally effective in a border planting, along a hedge or in clumps in the rear of the perennial garden. The Hybrids grow from five to six feet high while Belladonna grows from four to five feet high. (See page 35.)

**SCHEEPERS' HYBRIDS.** Exhibition quality blooms in finest mixture. Strong, field-grown clumps, \$1.00 each; \$9.00 for 10; \$87.50 per 100.

**SCHEEPERS' HYBRIDS IN SEPARATE SHADES.** Light, dark, mauve and pure white. Strong, field-grown clumps, \$1.25 each; \$11.00 for 10; \$95.00 per 100.

WHEN JUNE melts into July, *Lilium Candidum* (Madonna Lilies) planted with *Delphinium* reign supreme. Stateliness, beauty and fragrance are combined as in no other grouping. *Lilium Candidum* of our Special Northern France Strain, of the utmost quality, are best adapted to American Gardens. For further information on *Lilium Candidum* refer to page 28.

### **NORTHERN FRANCE GROWN LILUM CANDIDUM**

(See page 28)
